SENIOR ANALYST · ACCENTURE

29 YEARS · NAPLES (IT)

“Senior Analyst at Accenture and former tech-lead. I build with React, mentor engineers, and design agentic AI systems that multiply what teams can ship. Aiming to grow into a founder or product-led manager.

Senior Analyst · AI Engineering

ACCENTURE

Joined Accenture as Senior Analyst working across multiple enterprise projects and tech stacks. In the last year I have led the design and implementation of generative-AI and agentic systems for software-engineering teams — multiplying delivery throughput on dev, test and documentation workflows.

SFIDA S.R.L.

From intern to permanent, then promoted with team-lead responsibility. Trained and grew small development teams while shipping production React apps — the place I learned that helping people climb is my favorite kind of leadership.

UNITIVA

First professional contact with React — and love at first sight. From this point on, React became my sharpest weapon and the technology I'd build most of my career on.
